CALL FOR STUDENT LEADERS · SERBIA

Help us build GM Serbia

The Federation of Young European Policymakers

Génération Maastricht is a youth-led, non-partisan think-and-do tank on European affairs, founded in Paris in 2019 and named after the treaty that created the European Union. Students across Europe use it to study EU policy, publish their analysis and put their proposals to decision-makers. We are now opening GM Serbia and its university chapters, and we are looking for the students who will lead them.

Research and policy

Chapters write policy papers and briefs on the European questions that matter in their country, with support from the federation's research team.

Debates and events

Chapters host talks, debates and simulations on campus with academics, diplomats and elected representatives.

Youth voice in Europe

Members take part in EU and UN youth consultations and carry their chapter's proposals into the federation's advocacy.

ROLES OPEN NOW

- National president
- City chapter president
- Vice-president or secretary-general
- Research and policy
- Events
- Communications
- Partnerships

CHAPTERS WE WANT TO OPEN

Beograd · Novi Sad · Niš · Kragujevac · Subotica · Novi Pazar, and any other university city where students step forward.
